

Update 5/21/09:

The preconstruction meeting for Long Valley Estates to line was held on May 14, 2009. The contractor is moving equipment in and is expected to start work on the water tank site during the last week of May.

The contractor for this project is:  
Johannsen Construction  
1440 South Hwy 117  
Mt. Pleasant, UT 84647  
435-462-2815

Water meters will begin to be installed the first or second week of June and continue until all requested meters are installed.

Right now, the system is projected to be online and complete by October 1<sup>st</sup>, 2009, barring any unforeseen circumstances. Customer billing for this system will begin after the system is online and has passed all required testing. For now, expect to see your first billing statement at the end of October. If you elected to finance your connection, you will not receive a payment book. Instead, your monthly payment will appear on your water statement.
