

Swains Creek Water System Online

Phase VI of the Duck Creek Water Improvements District (DCWID)—Swains Creek Area came online on Friday, December 1, 2006. Water users of this area can now enjoy year-round culinary water.

The Kane County Water Conservancy District (KCWCD) will allow the water truck to run through June of 2007 to allow residents of this area time to connect lines from their new meters to their cabins.

For a list of contractors in the Cedar Mountain Area, please see our homepage for a link to this listing.
